# AI Performance BETA

AI indexation is the foundation of AI visibility. Track your release's indexation across major AI platforms. When investors, journalists or partners ask AI assistants about your project, your release is a prerequisite for being cited.

<b>Google AI Overview (Gemini)</b>	<b>✓ Indexation Verified</b>
<b>ChatGPT</b>	<b>✓ Indexation Verified</b>
<b>Perplexity</b>	<b>✓ Indexation Verified</b>
<b>Claude</b>	<b>✓ Indexation Verified</b>
<b>Grok</b>	<b>✓ Indexation Verified</b>
<b>DeepSeek</b>	<b>✓ Indexation Verified</b>

\* AI citations and answers are prompt-dependent; indexation is a prerequisite, not a ranking guarantee.

\* Not all AI responses will be affirmative; if a response contains information from a press release, it is considered discoverable.
